

All electric,
zero emissions

DISCOVER THE SILENCE

S02 Business+

SILENCE 

Electric bike with removable battery

The Silence S02 Business+ features an ingenious, 'click-and-go' portable battery system, with its own integrated carry handle and trolley wheels. Great for easy charging and enhanced security. All Silence vehicles use the same trolley type battery, interchangeable with each other.

Standard S02 Business+ features

The ideal tool for door-to-door delivery services and urban business use. The powerful S02 Business+ ups the performance and carrying capacity thanks to its 7kW motor, but still delivers up to 80 miles range. Our business model is fully customisable with a wide range of practical accessories, from cavernous top boxes to windscreens.

- > 125cc equivalent
- > Top speed 56mph
- > Up to 80 mile range (WMTC)
- > 0-30 in 3.9 seconds
- > Available colours white, green and grey
- > LED lighting
- > USB Port
- > Removable battery
- > Charge in any UK standard 240V socket
- > Running costs of around £0.01 per mile
- > 2 Years Vehicle Warranty
- > 3 Years Battery Warranty

Regenerative CBS Brakes

The left lever brakes both wheels and the right lever brakes the front wheel and activates the regenerative brake system to help brake and recharge the battery.

Reverse gear

Silence scooters are the only ones to feature a reverse gear, offering full manoeuvrability. This is activated by pressing the green button on the left handlebar. Once you've tried it, it becomes an essential driving mode.

Driving modes

ECO

In Eco mode, the scooter's speed is limited to 37mph. This allows you to save money and relax more as you drive.

CITY

The S02 Business+ is designed for getting around the City, with the speed limited to 50mph, giving the vehicle a good performance level and more balanced power consumption.

SPORT

In Sport mode, you can drive at speeds of up to 56mph, providing increased power and speed in specific cases and more regenerative braking.

Companies and professionals trust Silence

Our fully electric e-moto scooters have been tailored specifically around the demands of business. Our range offers different models and power outputs to suit your needs and all are fully customisable with a host of business-focused accessories. And all deliver the cost efficiencies that only going electric can bring:

- > Running costs 80% lower than the equivalent conventional scooter
- > Charging costs as little as £1 per 100miles
- > Service and repair costs cut by 30% per scooter

Running on pure electric will help you future proof your business and support the regulatory and societal needs to create cleaner and quieter urban areas.

More than 21,000 Silence e-moto scooters are already on the streets of cities across Europe. The S02 model has become the favoured fleet partner of forward-thinking organisations from police forces and local authorities to smart eco-conscious delivery and takeaway companies.

Warranty	Vehicle 2 years / Battery 3 Years

More than a battery. We redefine portable energy!

**S02
Business+**
5.6 kWh
Capacity

Unique removable trolley-type batteries

Fast & Easy Extraction System: the easiest and most convenient way to transport a battery... Yes, like a trolley! Recharge your Battery Pack at home or the office. High-capacity battery, 5.6 kWh, for outstanding performance.

Energy wherever you want with Nomad

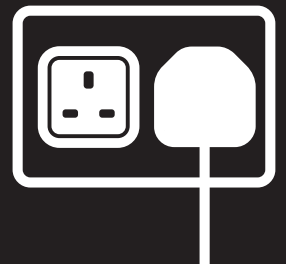

Our batteries are sources of energy, not only for our vehicles, but for anything we set our minds to. From this idea, the Nomad is born. A portable inverter that you can take wherever you need and use together with your battery as a power source.
